Move the Ambulance zone down a little.

Robert,

I am sorry to hear about this change of project scope. The project was walked in its entirety with Donald Duckworth of Westchester Town Center as well as Greg Monfette and Luis Torres of UFD. Each location was inspected individually and this location was included on the list to have the tree well open and a tree planted. If the project is changing scope, then UFD will need to be alerted. Also, LA Corps leveraged funding to cover the cost of tree wells and tree install at no cost to the City or the BID. However, if the scope is changing, then we will need funding to cover the cost to re-pave the area. Please let me know how you would like to proceed.

Best,

Meghan

Subject: Tree Well

They plan to plant a tree in front of the Medical Building

at 8540 Sepulveda Blvd. The entrance is on Manchester.

The cement was removed from the tree well. This is in a ambulance zone which should be kept clear. People in wheel chairs often use the ambulance zone to access the building.
